## LANIKAI – From the beach to the stage

Those who think ukuleles are toys are far wrong: the traditional Hawaiian instrument offers more than meets the eye and is gaining more and more importance in modern music.

LANIKAI ukuleles play a significant role in this, as LANIKAI does not offer ukuleles as an offshoot of a guitar production like most manufacturers, but has focused its know-how exclusively on the production of ukuleles. The quality of the instruments is correspondingly high and LANIKAI’s product range is so broad that both beginners and professional musicians will find their dream instrument.

From the beach to the stage - with LANIKAI you always have the right partner.
