# LEVY'S IS MORE THAN A STRAP COMPANY

---

The moments that have the greatest impact on our lives often don't seem that important at the time. Just ask Dennis Levy, who in 1973, decided to accept a set of leather-working tools instead of cash as payment for an odd job.

To his surprise, Dennis developed a love of leather-working. Inspired by the musical passion of his brother, lifelong guitarist Harvey Levy, he began creating guitar straps as his brother took to the road to build a network of vendors. Within a few years, Dennis and his wife Cheryl had invested their life savings and formed Levy's Leathers Ltd. And so a seemingly small decision led to bigger ones, sparking an enduring legacy.

Of course, it takes more than a few opportune moments to create one of the world's most respected names in quality guitar straps and accessories. It takes a steadfast dedication to craftsmanship, an earnest desire to empower all types of musicians, and a belief in helping others embrace their craft in their own way. All coming together to create a truly exceptional product that today, is trusted and loved by everyone from garage musicians to world famous artists.

## PLAY ON.

*All of our straps are crafted at the Levy's Leathers factory in Antigonish, Nova Scotia, Canada, 20 minutes from the northern coast and Northumberland Strait, and surrounded by beautiful, dense forest.*

# HIGH QUALITY CRAFTSMANSHIP GLOSSARY

MATERIAL	DESCRIPTION
 <p data-bbox="94 743 532 814">Veg-Tan Leather</p>	<p data-bbox="591 541 1442 722">Using the oldest known tanning method, veg-tan is the highest-quality leather available. We use an eco-friendly process of tanning leather hides that utilizes organic materials, such as tree bark, to create a rich, natural color palette. Over time and with each use, veg-tan leather becomes more flexible as it conforms to your body.</p>
 <p data-bbox="94 1115 532 1192">Top-Grain Leather</p>	<p data-bbox="591 953 1442 1058">Top-grain leather, also known as chrome-tan, is known for its sturdiness and quality at an affordable price. It uses an efficient tanning process that allows the leather to be dyed in a range of colors.</p>
 <p data-bbox="94 1493 532 1570">Garment Leather</p>	<p data-bbox="591 1268 1419 1486">Garment leather is a chrome-tan leather that has been treated with softeners to make it pliable and supple. Stemming from the garment industry, this leather has rich pigments and is used to create our softest and most flexible products. Straps with garment leather backing allows freedom of movement since it 'slides' without pulling on your clothes.</p>
 <p data-bbox="94 1871 532 1927">Suede Leather</p>	<p data-bbox="591 1661 1435 1843">Suede is a leather finish that offers a characteristic soft nap. The tanning process produces a fuzzy look that adds texture and character to the strap. When suede is used on the back of a strap, the nap will 'stick' to your clothes and help keep your instrument in place. Musicians choose a suede-backed strap to keep their guitar in place.</p>

MATERIAL	DESCRIPTION
Cotton Webbing	Our cotton webbing is an ideal choice when you're looking for a heavier material that's sturdy and versatile. This 100% cotton webbing provides strength to support all weights of musical instruments.
Textured Cotton Webbing	Offered in our MT8 series, this webbing is a unique alternative to our standard cotton. Black cotton fibers are woven into the webbing for a textured look and upgrade from traditional cotton straps.
Polyester Webbing	Polyester webbing is easy-to-clean, repels water, and is mildew-resistant. We offer two weights of polyester straps - basic and heavy weight.
Padding	The standard padding in our MSS series allows straps to retain their shape after years of wear. The padding provides relief from continuous pressure from the weight of an instrument.
Jacquard	Jacquard fabric features a raised pattern that is woven into the fabric. Multiple thread colors are used to create intricate and detailed patterns.
Sublimation	Sublimation is a printing process where ink is applied to a material and treated with heat to fuse with fabric upon application. Our sublimation straps are applied to polyester webbing and allow for ease of movement with the instrument.
Embroidery	Embroidery is the application of thread to the top of the fabric for decoration. We use state-of-the-art embroidery machines to create dense and accurate patterns.

## CLASSIC SLIM LEATHER

Black, Brown, Walnut, Tan

### MODELS:

M12-BLK  
M12-BRN  
M12-WAL  
M12-TAN

### DETAILS:

- Top-Grain Leather
- Adjustable to 52" Length
- 2" Wide

## CLASSIC STANDARD LEATHER

# ECONOMY GIG BAG SERIES

## DETAILS:

- Polyester Shell
- 1/2" Foam Padding
- Back-Pack Shoulder Straps
- Zipper Accessory Pocket

Levy's gig bags offer the rudimentary protection of a softshell bag as well as the heavy-duty durability of a padded gig bag. The rugged nylon exterior is resistant to rips, tears, and moisture while a top-to-bottom heavy-duty side zipper enclosure allows for easy loading and unloading. Inside, 10 mm of foam core padding provides extra protection. Exterior zipper pocket provides ample space for your favorite guitar strings, picks, and accessories.

**1 1/2" ADJUSTABLE BACK-PACK  
SHOULDER STRAPS**

“

# CRAFTING A LEGACY ONE STRAP AT A TIME.

”

FROM YOUR GRANDPA'S OLD ACOUSTIC TO YOUR FIRST GUITAR LESSONS. FROM ROCKING OUT IN YOUR PARENTS' GARAGE TO HEADLINING YOUR FIRST GIG—LEVY'S IS MORE THAN A STRAP. IT'S A RITE OF PASSAGE. AN INVITATION TO PLAY ON THE SHOULDERS OF GIANTS, AND WITH THEM. AN EMPOWERING RALLY CRY TO DEFINE YOUR SOUND, AND LIVE YOUR LEGACY.

**PLAY ON.**
